## *A Rare Opportunity to Delve into Classical Chinese Medicine....*

The *Neijing* describes Five Channel Systems :

*Sinew Channels*  
*Luo Vessels*  
*Primary Meridians*  
*Channel Divergences*  
*Eight Extraordinary Vessels*

These systems describe the rich tapestry of the human experience, yet they are only briefly touched upon in TCM schooling. Learn to tap into the depth of these systems and rediscover your joy of Chinese Medicine. It is an empowering and fulfilling journey which will change your practice.

We are offering an introductory class to get you acquainted with Classical Chinese Medicine. This is a unique chance to explore the true origins of acupuncture as a complete system of medicine. Discover how these five channel systems are used in clinical practice to treat chronic, recurrent and degenerative diseases.

This class is designed as an introduction to an affordable four-weekend series beginning in early 2010 in San Diego. The upcoming series will offer in-depth coverage of these five systems and their practical usage (point palpation, needle technique, point selection, pulse diagnosis and treatment strategies).

Due to the focus on clinical application, class size for the series will be limited to 25 people. This is an exceptional opportunity to learn about the roots of acupuncture and Classical Chinese Medicine in the tradition of Jeffrey Yuen.

Join us for the introductory class to be inspired! We will then form a select group of dedicated practitioners who will take part in the four-part series. Throughout the year we will gather together to learn and share our clinical experiences. It will be an exciting, fun and challenging experience for all involved!

***STEVEN ALPERN, L.Ac.** is the lecturer for this introductory class as well as the upcoming series. He practices Chinese Medicine as applied clinical philosophy. He began his study of acupuncture in 1982 and has been a student of Jeffrey Yuen for the past 15 years.*

*Steven is one of very few practitioners to receive Jeffrey's endorsement to teach Classical Chinese Medicine.*
